

Certified Water Testing Laboratories, New York State

Information compiled from NY State Farm Inspection and the NYS Department of Health, Wadsworth Center.

The National GAPs Program does not endorse or recommend any of these companies. The companies are provided as a convenience and as a resource for users of GAPsNET. The company list is not comprehensive and the National GAPs Program encourages users to seek additional resources that may provide alternative information.

Note: Be certain the company you choose provide you with the service you are seeking. For instance, if you would like a water test that quantifies generic E. coli, ask in advance to be certain the company can provide this information. Some companies will only provide absence or presence results without quantification.
